NOTE FROM THE AUTHOR

KIA ORA, MY FRIEND.

The Ascension Oracle Deck by Tautahi is the very first item to be released in our exclusive product line and I am very excited to share this with you!

Divination is not uncommon in my culture. In fact, I grew up surrounded by men and women who were energetic healers and could communicate with other realms.

I have always loved Tarot and Oracle cards and often refer to my card collection as my sixth finger. You see, my cards are not external to me, they are an extension of who I Am. So, it was natural that I would be guided to create my own oracle deck.

Over the course of 7 months, I worked with my team in spirit to embody the sacred work of the Divine Feminine. I planted a tiny seed of inspiration in the void of infinite possibilities and began to breathe new life into it.

Once my new creation had completed its gestation in this cosmic womb, I lovingly guided it into the physical realm for others to use and enjoy as part of their own ascension journey here on Earth!

When you receive your Ascension Oracle deck by Tautahi, take the time to hold a ceremony. Hold gratitude in your heart for the many hands who have carried the oracle deck to you from the printer to the postal service. Connect with each card by holding it in your hands. Observe the picture, the keywords and also the feeling that you get when you hold each card. If it resonates, you may also use incense smoke, sound, or the breath to assist you with your ceremony.

When you connect with your oracle deck in this way, you are infusing your essence into it. This, in turn, goes a long way towards ensuring your portal to divine wisdom is clean and clear and your messages flow with ease and grace.

The Ascension Oracle deck comes shrink wrapped without a guidebook. This intentional design was implemented to prompt you to surrender to your own intuition and thus strengthen your connection with your team in spirit.

As always, approach your learning with the playful curiosity of a child and you will be surprised at how much fun you will have on your ascension journey.

ASCENSION

THE JOURNEY OF EVOLUTION

KEYS TO THE KINGDOM

The Ascension Oracle Deck by Tautahi is built on the framework of the traditional Rider Waite Tarot deck, whereby, there is a Major Arcana and Four Suits.

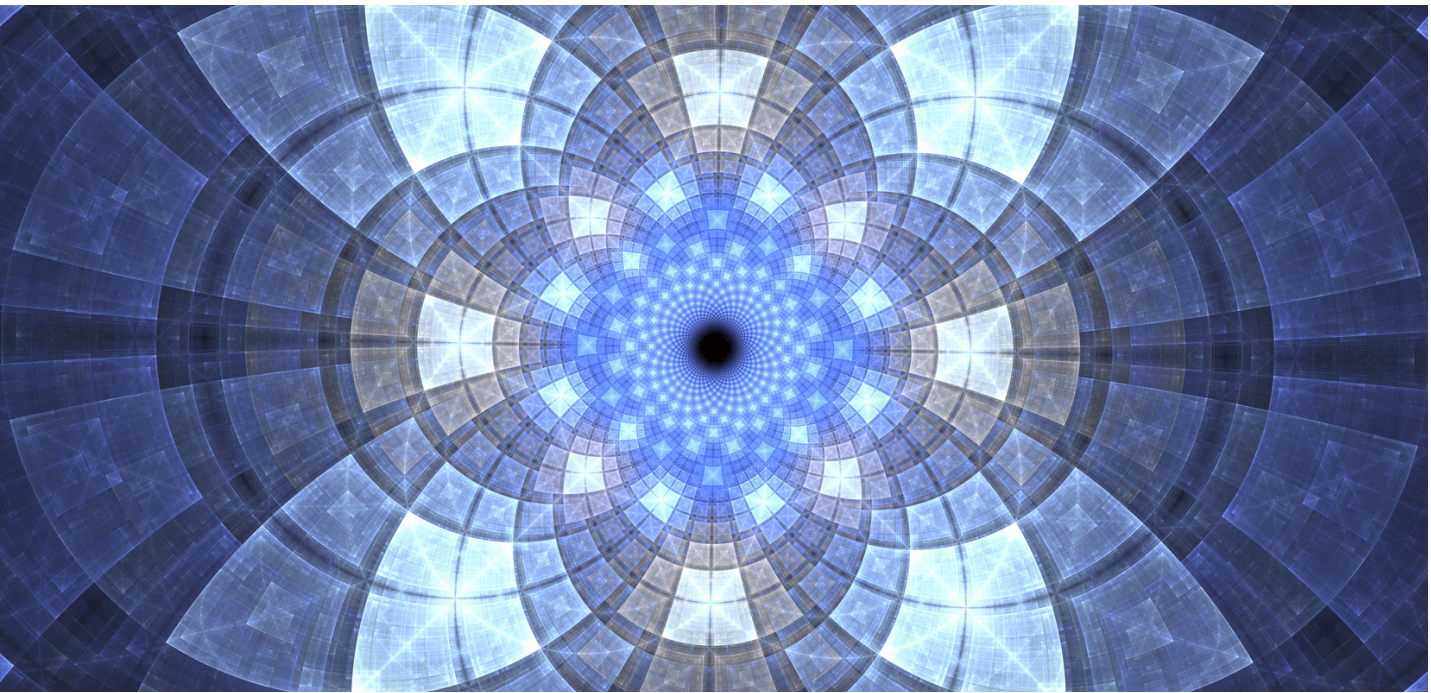

However, the major difference here is that all five components of the Ascension Oracle deck are specific to the ascension journey as it was witnessed in my own life. This was purposeful because I often felt very lost and alone after my awakening.

The numbers on the cards are representative of Sacred Geometry - the building blocks of the universe which I have covered at a high level on the next page. If it resonates, you can also use the numbers to tap into the wisdom of numerology and angel numbers.

I had no reference point for the experiences that I was having on my ascension journey and was often confused about how to navigate them. I also had nobody to talk to as my physical community didn't understand what was happening within me.

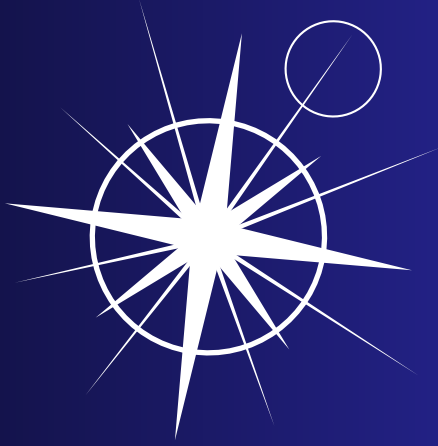

Whilst this isolation period is quite normal on the ascension journey, I was not aware of that at the time. It was during this time that I would walk some very dark pathways and come quite close to leaving the Earthly realm.

It is my greatest hope, that by putting my personal experiences out there in the form of the ascension oracle deck that it may provide others with the keys to the kingdom. May you be comforted by the knowledge that you are not alone and you are always welcome in the Tautahi Tribe where ascension journey topics are openly discussed.

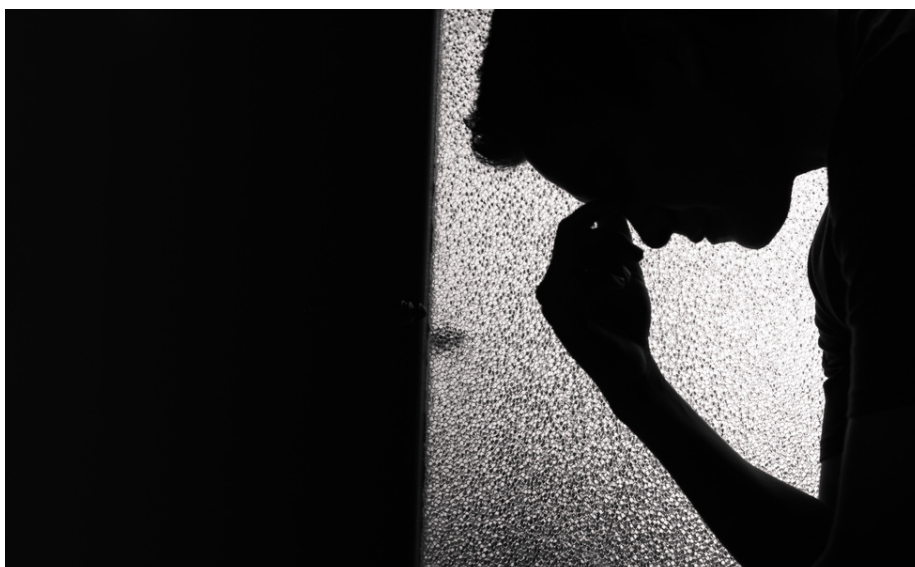

SACRED GEOMETRY

- 1 - The Circle. The building block of everything that is. Connected to the colour white. Also represents the Divine Feminine and eternal unity through endless sacred cycles.
- 2 - The Vesica Piscis. Polarity and separation. Also represents the Divine Reversal effect and the need to balance duality within and without.
- 3 - The Triangle. Two elements being perfectly balanced by a third element. Also represents the trinity of the mind, body and soul.
- 4 - The Square. The physical world being perceived as solid. Also represents natural cycles and the building blocks of all physical matter.
- 5 - The Pentagon & The Pentagram, The symbol of true freedom. Also represents the Perfect Divine Human being and the hidden key to life.
- 6 - The Hexagon and the Merkaba. The first perfect number. Also represents inner peace that derives from balancing the physical and the spiritual.
- 7 - The Heptagon. Perfect Order. Considered highly mystical as it's the only number from 1-10 that cannot divide a circle without a remainder. Also represents purity, wisdom, spirit and unconditional love.
- 8 - The Octagon. The number of magic, empowerment and the infinite. Also represents empowerment through harmonic resonance with the galactic grid.
- 9 - The Nonagon. Mastery, expansion and completion. Also represents the return to oneness.

SUIT *rising* ONE

RISING

The first suit in the Ascension Oracle by Tautahi is called 'Rising'. This suit is cards 1-12 and is based on the Divine Dark which is more commonly known as your shadow body and / or your shadow work. This suit is first because it represents the first phase of an actual ascension cycle.

Your shadow body is a collection of patterns and behaviours that derive from your past experiences. These past experiences can and will colour all of your present experiences if they are not addressed. It is completely normal to have a shadow body and there are many of us who meet it with love for the purpose of our own evolution.

The trick here is to allow all your outdated patterns and behaviours to rise to surface for acknowledgement. This process is quite literally the backbone of your shadow work for you cannot release that which does not rise to the surface.

The images in this suit are all black and white to represent the fact that they do not add colour to your life when they are allowed to fester.

This suit is associated with the Air Element and integrating the human mind and intellect with the Divine Mind.

RECONCILING

The second suit in the Ascension Oracle by Tautahi is called 'Reconciling'. This suit is cards 13-24 and is based on the process where we sit with ourselves and acknowledge the thoughts and feelings that have risen to the surface. This suit is second because it represents the second phase of an actual ascension cycle.

Acknowledging who we are, and where we are on the ascension journey is pivotal for this phase. Find the will and the way to hold loving space for your own thoughts and feelings and navigate your way back to peace. The reality is this - we are all souls having a human experience and Earth life isn't always straight forward.

The trick here is to choose a method that resonates with you personally You are the master of your own universe and therefore you are the only person who knows which method is right for you. It can be any practice that allows you to self-soothe. A practice that makes you feel safe enough to open up and accept more of your own love and light. E.g: Meditation, Dance, Time in Nature.

This suit is associated with the Water Element and integrating the human heart and emotions with the Divine Cosmic Love.

RELEASING

The third suit in the Ascension Oracle by Tautahi is called 'Releasing'. This suit is cards 25 - 36 and is based on the process where we surrender everything that does not serve us to create space for who we will show up as in our next cycle. This suit is third because it represents the third phase of an actual ascension cycle.

The objective with releasing is to willingly let go of that which kept us bound, so that we may step up and step out into more of the infinite self in our new cycle.

The trick here is to embrace the grief process. You are saying goodbye to a part of who you were. This part of you may have been around for quite some time and it's ok to be sad about the departure even if it represents bright new beginnings.

This suit is associated with the Fire Element and creating space, like the void, for infinite possibilities to be seeded within you and your world.

RENEWING

The fourth suit in the Ascension Oracle by Tautahi is called 'Renewing'. This suit is cards 37-48 and is based on the process where we expand and evolve now we have space to bring more of our own light in. This suit is fourth because it represents the fourth phase of an actual ascension cycle.

The objective with renewing is to fill ourselves back up again. Sinking into self-care as a way of life, downloading more wisdom from the higher realms and invoking protection.

When we ascend from one sacred cycle to the next, our energetic signature becomes

bigger and brighter. We are more visible. In order to keep our own channel free of any external distortion or disturbances, it is vital we refresh our protection practices as we learn, grow and evolve.

The trick here is to find a way to nourish yourself that is unique to who you are and your own ascension journey. Find people, practices and places that make you feel good inside and out and get involved in them!

This suit is associated with the Earth Element and integrating the physical realm with the spiritual realms. Using the physical body as the portal to achieving higher consciousness.

RAPTURE

The Major Arcana in the Ascension Oracle by Tautahi is called 'Rapture'. This suit is cards 49-62 and is based on all the added extras that just make the ascension journey amazing! You will find cards that portray things like Divine Union, Formless Flow and Unity Consciousness. You will also find the Inner Child, Soul Blueprint and the Diamond Heart.

The Major Arcana are found at the end of the deck because they represent that final phase of an actual ascension cycle when your channel is cleaner and clearer and therefore available to download information of a higher vibration.

The objective with rapture is to teach others about the concepts that I personally stumbled upon on my own ascension journey. When these cards show up in a spread, you are being called to look into these concepts.

The trick here is to celebrate yourself. You've gone through rising, reconciling, releasing AND renewing to get to the rapture stage. This is not always an easy feat and in case nobody told you this today I Am proud of you Kings and Queens who continuously show up for yourselves. Bravo!

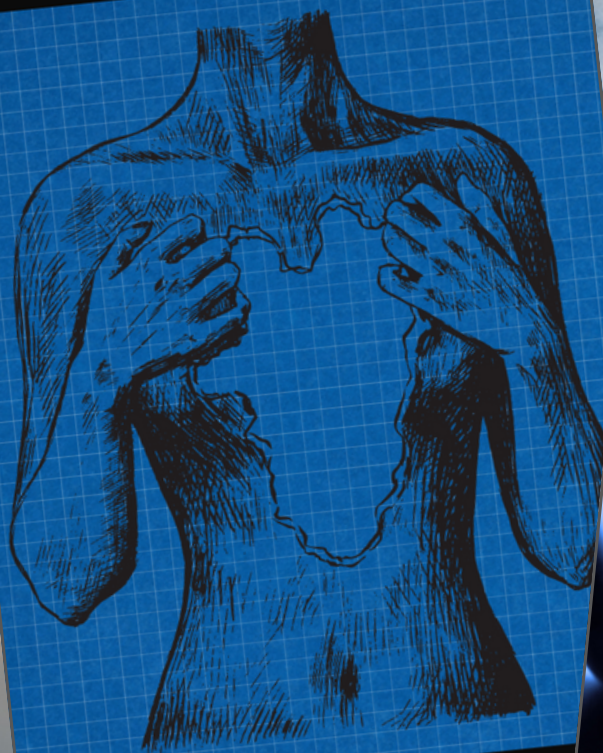

Whilst the Major Arcana isn't associated with an element, it is associated with 'just being' and by that, I mean being one with all things and enjoying your human experience. Ascension is literally what you make of it. It doesn't have to be all shadow work and no play! Invoke the bliss at the end of each sacred cycle and experience true freedom!
